

# Co-founder and CEO - Shashank Bijapur

## Short Bio:

A Harvard Law School alum, Shashank's entrepreneurial insights have been refined over his years of experiences as a corporate lawyer. As the CEO of SpotDraft, Shashank integrates his legal expertise with global insights to solve problems that are most pertinent for today's legal teams.

## Detailed Bio:

Shashank is the co-founder and CEO of SpotDraft. With an exhaustive experience as a corporate lawyer himself, Shashank integrates his experiential learnings to identify the most pertinent challenges of the legal community and help them outperform everyday with SpotDraft.

Having worked formerly with law firms in India and US, Shashank deploys his cross-cultural experiences into building SpotDraft's global ambition. He has a granular understanding of contract creation, negotiation, and execution and contributes actively to the Sales and Outreach teams.

A Harvard Law alum, Shashank now aims to improve the work-life of the legal community by constantly building and improving SpotDraft and help it help lawyers do and achieve more every day.

# Co-founder and CTO - Madhav Bhagat

## Short Bio:

Madhav is an engineer-turned-innovator with over 5 years of entrepreneurial history. Having previously founded and led a tech and design startup, he is now shaping the future of legal interactions as the co-founder and CTO of SpotDraft. A Carnegie Mellon alum and ex-Gogler, Madhav leverages his intricate expertise in tech, leading SpotDraft's technical team towards thoughtful and robust legal innovations.

## Detailed Bio:

Madhav Bhagat is the co-founder and CTO of SpotDraft. He is a seasoned entrepreneur with over 5 years of experience in directly scaling startups.

Madhav is a Carnegie Mellon alum and is passionate about technology and its transformative power. In 2015, Madhav quit Google - where he led the team that built Google Classrooms - to return to India and build a digital coding and product development startup. In 2017, he co-founded SpotDraft and is its acting CTO.

Leveraging his deep expertise in tech, product innovation and leadership, Madhav oversees the engineering teams at SpotDraft to build a competent platform that shapes the future of legal innovation.

# Co-founder and CPO - Rohith Salim

## Short Bio:

Having been directly involved in building pathbreaking, cross-generic products - including Yelp, Oysterbooks, CueMath and more, Rohith Salim leveraged his software engineering expertise to build and lead products of his own. In his current role as the co-founder and CPO of SpotDraft, Rohit evolves today's legal technology by helping build a formidable product to help corporate legal professionals across domains.

## Detailed Bio:

As a life-long learner, Rohith was involved in building products that directly impacted millions of customers. He was also the first product manager for Oyster Inc. - a streaming platform for digital e-books, later acquired by Google.

With the right mix of cross-domain technological expertise and product knowhow, Rohith now leads SpotDraft as its co-founder and CPO, defining, improving and strategising its product journey.

Rohith has a MSc & BSc in Electrical and Computer Engineering from Carnegie Mellon along with a major in Human Computer Interaction, and has over 5 years of entrepreneurial experience where he built and led products of his own.

He is passionate about technology, design systems and is actively involved in determining the solutions at the intersection of law and technology, which will change future legal interactions.
