

## About SpotDraft:

SpotDraft is a legal-tech company focused on helping lawyers achieve greater operational efficiency with an intuitive end-to-end contract automation platform. SpotDraft couples hyper-personalisation and automation to help drive solutions that are contextualised and tailored to the unique needs of legal teams of diverse sizes.

## Company Brief:

Founded in 2017, SpotDraft now spans three continents, touching the lives of several teams across businesses - both small and large. It is purpose-built for fluidity, and helps organizations simplify cross-team collaboration, achieve faster contract life-cycles, and generate better outputs with minimal resources.

SpotDraft's intuitive automation system, understands your contractual requirements, analyses compliances and obligations, highlights key aspects of your document and sets reminders and tasks automatically. It's in-line legal editor identifies contract purpose, highlights textual/legal inconsistencies, and also helps reference associated clauses.

With SpotDraft, in-house legals can focus more on strategy, and automate multiple time-consuming processes across a contract lifecycle.

Our vision to make the everyday task of a legal professional smoother, is supported by investors like - 021 Capital, Singapore Angel Network, Hunch Ventures, Spiral Ventures, 500 Startups, Addition Capital and a bevy of talismanic angel investors like Girish Mathrubootham and Satyen Kothari.
