

Company Profile

About SpotDraft

At SpotDraft, we're transforming how modern businesses manage contracts — with an AI-powered Contract Lifecycle Management platform that automates and accelerates every step of the contract lifecycle. From intake to approvals, drafting to negotiation, execution to renewal — SpotDraft helps legal and business teams work faster, collaborate better, and unlock real, measurable value from contracts.

SpotDraft was founded in 2017 by a Harvard Law graduate and a Carnegie Mellon engineer who shared a vision: that legal work — especially contracts — could be radically more efficient, collaborative, and impactful if powered by the right technology.

That vision is now trusted by 400+ global customers, from fast-growing startups to large enterprises, including **Postscript, MoEngage, Mixpanel, Panasonic, and Apollo.io**.

Today, our platform spans every aspect of contract management:

-  **AI-first contract creation and review**
-  **Smart clause extraction and analytics**
-  **Automated workflows and approvals**
-  **Secure repository and obligation tracking**
-  **Integrations with 35+ business tools**

Headquartered in **Bangalore**, SpotDraft's team of 300+ employees serves businesses across the **Americas, EMEA, and APAC**. Our scale reflects not just market demand but also our unwavering focus on delivering a product that legal and business teams love to use.

Recognition & Growth

We've been recognized globally for our innovation and impact:

- *Fast Company's Most Innovative Companies 2024*

- *Forbes Asia's 100 to Watch*
- Raised \$54M in Series B funding, backed by leading investors including Vertex Growth and Trident Growth Partners, Prosus Ventures, 021 Capital, and angel investors like Girish Mathrubootham and Satyen Kothari
